The STIHL FS 111 RX professional trimmer fulfills the landscaper’s trimming needs thanks to its time-saving features. Designed with a larger fuel tank than the FS 100 RX, this model provides 30% longer run times, as well as a simplified three-step start procedure to get to work faster. With its semi-automatic choke lever and one-touch stop, the FS 111 RX allows users to turn off the engine with the simple press of a button. Its low-emission engine makes the FS 111 RX a powerful and dependable tool. It has a straight, hollow steel drive shaft and a loop handle designed to provide users with excellent maneuverability around landscaping obstacles. Don’t wait any longer – see it at our Dealership now.

Standard Features

- **Common Features for Trimmers**
  View the features common to many STIHL trimmers.

Optional Features

- **Trimmer Heads & Blades**
  Many trimmer heads and blades are available. Find out which ones to use with this model in this chart.

- **Trimmer Line**
  There's high-performance STIHL trimmer line for every operating condition.

- **Straps and Harnesses**
  They distribute the load from your hands to your shoulders. They also help reduce operator fatigue and make it easier to use trimmers, brushcutters and clearing saws for extended periods.

*Without deflector and cutting attachment.

Important Information

**WARNING!** Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle or a loop handle equipped with
a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

**Note:** STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty. [Learn More...](#)

**WARNING!** Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.
